1	designing the when the team was designing the 03:50	1	this Sony style. 03:52
2	iPhone, we we wondered, as you might, just 03:50	2	A. Well, I remember that we were heading 03:52
3	what what might the competition would do. There 03:51	3	down we we were working on, you know, 03:52
4	was no competition for us at the time. 03:51	4	different directions. And Shin and I walked over to 03:52
5	But it was we wondered, well, yeah, 03:51	5	the table when when he was just starting to think 03:52
6	what what what might Sony, you know, for 03:51	6	about it, and the project design table, and we 03:52
7	instance do if they were if they had our 03:51	7	were having a chat about it. 03:52
8	technology and and would create that product. 03:51	8	And we picked up a model off the table 03:52
9	So I think Jony asked him to to have a 03:51	9	that that we liked, that we had done previously. 03:52
10	look and see, since he was Japanese, what he might 03:51	10	And and so Shin was going to base the design 03:53
11	do. 03:51	11	his, you know, exploration on this model and add a 03:53
12	Q. Is there anything else that you can 03:51	12	few Sony-esque sort of details to it. Because 03:53
13	remember about the about the project that 03:51	13	that's yeah, that's what we that's what we 03:53
14	Mr. Nishibori was asked to do on the Sony style? 03:51	14	wanted to do. 03:53
15	A. I'm not sure it was a project. But, you 03:51	15	Q. Anything else you can remember? 03:53
16	know, just a little aside, really. 03:51	16	A. Not not a lot, really. No. 03:53
17	Q. I regardless of whether it's a project 03:51	17	Q. Let me show you what was previously marked 03:53
18	or exercise, whatever the case may be, do you 03:51	18	as Exhibit 1172. And for the record, we're we 03:53
19	remember anything else about it? 03:51	19	marked this as TX623. 03:53
20	A. I remember not in huge, massive detail. 03:52	20	A. Okay. 03:54
21	Q. But, generally speaking and by the way, 03:52	21	Q. Do you recognize what's shown here in 1172 03:54
22	I'm going to show you a couple of documents here in 03:52	22	as the Sony-style design that Mr. Nishibori was 03:54
23	a minute that may jog your memory. But I'm just 03:52	23	working on that you were discussing? 03:54
24	trying to find out if there's anything so far that 03:52	24	A. It looks it looks pretty similar to it, 03:54
25	you recall generally about what Mr. Nishibori did on 03:52	25	m-hm. 03:54

1	Q. All right. We're going to come back to 03:58	1	A. They seem pretty similar to me. 03:59			
2	,					
3	, , ,	· · · · · · · · · · · · · · · · · · ·				
4	A. Okay. 03:58	4	look similar to the model that's shown here in 562? 03::			
5	Q. In terms of the just that that shape, 03:58	5	A. Roughly. 03:59			
6	the rectangular shape with the rounded corners, 03:58	6	Q. And do you recall whether Mr. Nishibori 03:59			
7	exactly as it's shown here in the CAD drawings of 03:58	7	made any changes to that that band apart from the 03:59			
8	Exhibit 1172, are you able to say one way or another 03:58	8	jog wheel that you mentioned? 03:59			
9	whether Mr. Nishibori changed those at all? 03:58	9	A. I can't be sure exactly. 03:59			
10	MS. TAYLOR: Asked and answered. 03:58	10	Q. And focusing, then, on that preexisting 03:59			
11	THE WITNESS: I'm not sure whether he 03:58	11	model that you saw, who created that design? 03:59			
12	changed them. 03:58	12	A. This one (indicating)? 03:59			
13	BY MR. ZELLER: 03:58	13	Q. Well, I let me rephrase the question, 04:00			
14	Q. And then you'll see that there's that in 03:58 the side views there's the metal band kind of design 03:58	14 15	then, for a moment. 04:00			
15 16	shown here on the first page of 1172. 03:58	16	5			
17	You see what I'm referring to? 03:58	17	the first page of TX562 you refer to "what Shin 04:00 is doing with the Sony-style chappy" 04:00			
18	A. I don't know what material it is, but I see 03:58	18	A. Sorry. 04:00			
19	there's a band there. 03:58	19	Q. And then you go to say, Also note that it's 04:00			
20	Q. And was that band portion that's depicted 03:58	20	only half a step away from where we were with the 04:00			
21	here in the CAD drawings also part of that model 03:58	21	metal band, black inside, before we changed to the 04:00			
22	that that you saw that was preexisting? 03:58	22	three equal striped sandwich, which I show below. 04:00			
23	A. Yeah. 03:59	23	Do you see that language? 04:00			
24	Q. What were the sides? More like what's 03:59	24	A. I see that. 04:00			
25	shown here in TX562? 03:59	25	Q. And so what are you referring to there when 04:00			
	Page 64		Page 65			
1		1	Do you see that? 04:02			
1 2	you say "it's only half a step away from"? 04:00 A. I'm not sure. I think I'm saying that 04:00	2	A. Yeah. I can see that. 04:02			
3	Shin's the thing that Shin was working on is 04:00	3	Q. And so what are you referring to here when 04:02			
4	similar to the to what we were working on 04:01	4	you say "the Sony-style chappy"? 04:02			
5	previously. 04:01	5	A. I can't be sure exactly, but I think 04:02			
6	Q. So then focusing on the model that's there 04:01	6	it's I think it was something that Shin was 04:02			
7	on the left, shown on page 121, which is the black 04:01	7	working on, which was you know, this is something 04:02			
8	one, was there was there a name that you used for 04:01	8	that Shin had a go at. 04:02			
9	this model? 04:01	9	Q. And then focus on that model, then, that's 04:02			
10	A. I can't remember. 04:01	10	on the left-hand side, on page 121 of TX562 04:02			
11	Q. Was this more in that style of the the 04:01	11	A. Okay. 04:02			
12	Sony-style chappy that's being referred to here? 04:01	12	Q is this a model that was created after 04:02			
13	MS. TAYLOR: Objection. Vague. 04:01	13	Mr. Nishibori was working on this design that's 04:02			
14	THE WITNESS: Yeah. I'm not sure what you 04:01	14	shown in 1172? 04:02			
15	mean by "in the style of." 04:01	15	A. No. I don't believe so. I think this was 04:02			
16	BY MR. ZELLER: 04:01	16	created before. 04:02			
17		1	Q. In looking at the model that's depicted 04:03
